

"School is a building with four walls, with tomorrow inside"

GURU TEGH BAHADUR PUBLIC SCHOOL, NORTHEX, MODEL TOWN

GTBPS GAZETTE

From the Chairman's Desk

"Education is not preparation for life, education is life itself."

We at GTBPS aim to provide a learning environment that is safe and child-centered. We believe in acknowledging and respecting students from diverse families and cultural backgrounds. The yardstick of measurement of progress in education is not only scoring high marks in examinations but in the creative opening up of a student. The way a flower takes its own time to blossom, a student with his latent potential takes his own course of opening up. At GTBPS, our teachers' role is more of a facilitator and nurturer of the young minds. The multiple intelligence in children is identified and right from the primary stage itself a child is encouraged to think creatively, differently, and is emboldened to analyze concepts and situations. Our continuous endeavor provides a comprehensive program schedule for curricular and co-curricular activities of the students. Our priorities are centered on the following areas:-

- * Providing a safe and holistic learning environment to our students.
- * To comfort the students with all the necessary knowledge and skills to become truly successful in the chosen field.
- * To equip the students with all the necessary knowledge and skills to become truly successful in the chosen field.
- * To adopt innovative methods to stimulate interest and attention among the students and develop in them an appreciation for the values of the past, the excitement of the present, and the challenges of the future.

* Prioritizing the health, safety and well-being of our students.

The confidence that you have reposed in us will help us to take your children a long way with your timely co-operation.

I extend my warm wishes to the Principal, staff, and students of Guru Tegh Bahadur Public School.

RANDHIR SINGH CHANDHOK
Chairman

From the Principal's Desk

This pandemic is a collected crisis of unprecedented magnitude. Saving lives and reviving livelihoods are the current priorities of society today. We too must rise to meet the formidable challenge bravely and should not let the pandemic pin us down. What we need now is patience, optimism, resilience, and firm faith in GOD ALMIGHTY. Remember, "You are braver than you believe and stronger than you seem and smarter than you think. Keep your face towards the sunshine so that you don't face shadows." We persistently seek to bring the most transformative 21st century learning practices to our classrooms predominantly those that rely on student empowerment and self-directed learning. The school has worked on a detailed Back to School Plan keeping the safety and best interest of every child. Our endeavor at GTBPS is innovative pedagogical approaches alongside direct instruction to help our young minds not only to remember but also to analyze. We are harnessing education technology in a way that meets the teaching and learning needs of students and educators alike. This year we intend to equip your child with knowledge, skills, and motivation to pursue their passion and achieve their potential. Parental involvement is a significant factor in the success story of each student.

We value your inputs and elicit a strong partnership. Looking forward to your wholehearted support in all our endeavors to provide a congenial and conducive learning environment to our students.

Welcome back, dear students!

BALJEET KAUR
Principal

Our **VISION** is to empower students to acquire, demonstrate, articulate the valuable skills that will support them as life-long learners, to participate and contribute to the world. We aim to develop well-rounded and thoughtful students prepared to cope with a changing post-modern and globalized world.

Our **MISSION** is to empower all students to embrace learning, achieve their personal best, and build their emotional, social and physical well-being. Our goal is to create relevant learning opportunities for students both inside and outside the classroom that help them develop the knowledge, critical thinking skills to succeed in a technologically advanced world.

NATIONAL MATHEMATICS DAY

Mathematics can be one of the most interesting subjects for students if taught with new and innovative teaching techniques. GTBPS celebrated National Mathematics Day by conducting various maths activities to introduce new concepts and refresh the old ones.

TEACHER'S DAY saw a celebration of our teachers' tireless perseverance to teach and guide their students even amid the harrowing circumstances caused by the pandemic. Principal Mrs. Baljeet Kaur in her message commended the untiring efforts by the teachers. Students of various classes had put up a plethora of engaging and vibrant performances.

DUSSEHRA-The festivities included narration of mythological tales to the children, enactment and depiction of Ramayana by students and the symbolic burning of the effigy of Ravana showing the triumph of good over evil.

FIRELESS COOKING not only teaches cooking to children but also teaches some valuable skills of life. With this, children improve their knowledge of basic skills like measuring, counting, and following instructions.

DIWALI-To celebrate the auspicious festival of lights, students from the junior and senior wings presented a virtual cultural program. While the junior school students made us smile with a medley of performances, the students of the senior wing raised awareness by sharing valuable information on how to celebrate Diwali in an eco-friendly way.

THE GOAL OF EDUCATION IS THE ADVANCEMENT OF KNOWLEDGE AND THE DISSEMINATION OF TRUTH.

LET'S GO GREEN: GTBPS followed the go green initiative by planting saplings from home on the occasion of WORLD NATURE CONSERVATION DAY AND GREEN DELHI DRIVE. A tree plantation drive was undertaken based on the guidelines of the department.

PUPPET MAKING ACTIVITY : Puppets change the entire classroom environment. The activity puts them in the role of a creator. Our little GTBPians innovatively made various puppets with help of socks and other household materials.

WORLD OZONE DAY was observed on 16 September. Students were apprised about the protection of the ozone layer and the importance of adopting certain activities in daily life to protect the atmosphere.

LOHRI CELEBRATION : Virtual Lohri Celebration encompassed great vigor and festivity. Children dressed in their best attire sang traditional Lohri songs and danced to the tunes of Bhangra.

CLAY MODELLING nurtures a child's creativity, boosts imagination, and imbibes self-confidence. Students made models of ice creams, flower pots underwater creatures with the play dough. Children enjoyed every bit of the activity and participated with great zeal.

GTBPS JOINED HANDS WITH ROBINHOOD ARMY FOR A NOBLE CAUSE.

EXPRESSION OF THOUGHTS

**“What Good is Wings Without
The Courage To Fly”**

A pot was once asked

“How do you remain cool in
every situation?”

The pot answered:-

“I just remind myself that I am
made of mud and will return
back to mud then why have
pride and anger?”
